Mexico

Mexico is situated in the northern hemisphere of the American Continent. It borders the United States of America to the north, Guatemala and Belize to the south, the Gulf of Mexico to the east, and the Pacific Ocean to the west. Its territory has a total area of 1,964,375 km². The country is divided into 31 states and 1 Federal District.

Mexico offers a great variety of attractions including a heritage of Pre-Columbian civilizations, great archeological sites that shape the national identity and breathtakingly beautiful beaches. The country brings together the historical remains of cultures dating back thousands of years blended with the excitement of large cities. Mexico is unique thanks to its natural wealth combined with its remarkable historic elements and its internationally renowned infrastructure.

Mexico's diversity can be experienced throughout its 32 states, all of which offer an endless number of destinations where all sorts of leisure activities are there to be enjoyed.

As the birthplace of great painters like Diego Rivera and Frida Kahlo as well as acclaimed writers like Agustin Yañez, Juan Jose Arreola, Octavio Paz and Carlos Fuentes, Mexico was also home to impressive muralists like Jose Clemente Orozco and David Alfaro Siqueiros, all of whom are part of a rich culture characterized by the expressions of all Mexicans.

Guadalajara, host city of the upcoming Pan American Games is located in the State of Jalisco, known internationally by its Mexican identity icons like "charrería", "mariachi" music and Tequila.

Jalisco offers endless possibilities: Cultural, natural, touristic and gastronomic; all of which will give the America's Fiesta a color that is distinctly Mexican.

The City of Guadalajara

Guadalajara is the capital of the State of Jalisco. The city is located in the central region of the state and has a population of 1,600,940 people, making it the second largest city in Mexico.

The Guadalajara Metropolitan area also includes the municipalities of Zapopan, Tlaquepaque, Tonalá, Tlajomulco de Zuñiga and El Salto. Added together, the population for the metropolitan area totals 3,967,252 inhabitants according to the 2005 census.

Guadalajara is at an altitude of 1,567 meters above sea level and is one of the main cultural, economic, historic, industrial and religious centers in Mexico. All of this gives the city significant influence over the rest of the country.

“Tapatío” is the Spanish word used to refer to Guadalajara’s natives. The city is named in honor of the Spanish city of Guadalajara and the word may mean “rocky river”, “rocky valley” or “fort valley.”

Host of major events

The city was a subsite for the Mexico 1968 Olympic Games and the 1970 and 1986 football World Cups. It has also hosted several international events such as the first Ibero-American Summit in 1991 as well as the Latin American and the Caribbean-European Union Summits in 2004. In 2005, the city was named Cultural Capital of the Americas.

In 1987, the Guadalajara “Expo” Convention Center opened its doors and for the upcoming Pan American Games, the center will act as the International Broadcast Center, Technology Operations Center, Main Operations Center and the Main Press Center.

There are more than 25,000 hotel rooms in the City and the metropolitan area is a national leader in the investment and development of commercial centers.

Official currency

The peso is Mexico’s official currency and is represented by the symbol \$. The bills that are currently in circulation have a denomination of 20, 50, 100,

500 and 1,000 pesos. The coins in circulation are 10, 20 and 50 cents as well as 1, 5, 10 and 20 pesos.

Exchange rates vary on a daily basis so, previously consulting rates with specialized foreign exchange providers is highly recommended in order to find out about the latest exchange rate.

In Guadalajara, currency and traveler's cheques may be exchanged directly at currency exchange businesses, at some banks or at any airport. The most common currency exchange is between the US dollar and the Mexican peso, or between the Euro and the Mexican peso. Exchanging from dollar to peso is the most recommended transaction.

The official banking partner for the XVI Pan American Games Guadalajara 2011 is **Scotiabank**.

Credit and debit cards

Credit cards are widely used in Guadalajara as they are accepted in almost all business establishments, hotels, restaurants and travel agencies; however, it's a good idea to carry some domestic currency for incidental expenses. The most accepted cards include Visa, Master Card, Diner's Club and American Express.

Voltage

Electric current is at 110 volts at 60 MHz. It's the same voltage that is used in the United States and Canada. If your electronic devices run on 220 volts, you will need an adapter. Please note that the standard plugs are flat-pronged.

Business hours

Like most Mexican cities, office hours usually run from 9AM to 5PM. As for shopping centers, hours of operation run from 9AM to 8PM and while most open on Sundays, it's best to check before going.

Tipping

Tipping is not compulsory; however, at bars, restaurants, discotheques and night clubs, it is customary to leave a tip between 10 and 15 percent, not counting the value added tax (IVA) included in the bill.

For bellboys and valet parking attendants, a \$1 to \$2 US dollar tip for their service is customary in Guadalajara.

System of measurement

The system of measures used in Mexico is the Metric-Decimal system. Temperature is expressed in degrees Celsius and volume is expressed in liters.

Hospitality

“Tapatíos” are widely recognized for their warmth and hospitality. You are like to feel at home in Guadalajara.

If you need tourism assistance in Guadalajara, you should be able to go to one of the Board of Tourism information booths that will be located throughout the State of Jalisco during the Pan American Games. These kiosks will be strategically placed in or around the Pan American venues.

Athletes and horses entered for the Games on the list of nominated entries (four weeks before the Games) can be replaced and additions can be made within the limits specified in art 116.4.2 until the date of definite entries.

Training Sessions

The day before the first official competition, the organizing committee will hold an official training session in the main arena that consists of approximately eight obstacles including one combination. Each athlete/horse combination will

be allowed maximum 90 seconds per horse. Dress will be informal but will include boots, breeches, shirt and a hard hat. The public may enter the installations of competition and no prizes will be awarded.

Jumping Competition

The Games comprises three Competitions, each taking place on a different day. The total penalties incurred by the three best placed Athletes in the first Competition and in each round of the second Competition count towards

the Team placing and the total penalties incurred in each of the first three Competitions count towards the Individual placing.

First Competition – Individual and Team

The First Competition is conducted over a Table A course and judged under Table C in accordance with FEI Rules, Art. 239, without a jump-off in the event of equality for first place.

Obstacles and Length of Course

From 12 to 14 obstacles that include a double and a triple or three doubles. Maximum height of 1.45m with a spread in proportion not to exceed 1.70m (1.90m for the triple bar). Water jump of a maximum of 3.50m including the take-off element.

Length of the course: minimum 500m and maximum 600m

Scoring: Refer to Article 325.5.

Starting Order: The starting order for the First Competition will be decided by a draw to take place during the Technical Meeting the day before the First Competition.

Second Competition – Team Final – Second Individual

Only athletes and horses that participated in the First Competition may participate in the Second Competition.

The Second Competition will take place over two equal rounds (first and second round), judged according to Table A not against the clock, at a speed of 375m/min with a jump-off, in case of a tie for first, second or third Pan Am Team classification.

If two Jump-offs are required, the jump-off for the third place shall precede the jump-off for the first and the second place.

If after the Jump-off there is equality of penalties and time for one of the first three places, the teams concerned will be placed equal.

Obstacles and Length of Course

12 to 14 obstacles, including one double and one treble or three doubles. Height 1.50m maximum with a spread in proportion not exceeding 1.80m (2.00 m

for the triple bar). At least two vertical obstacles, which must be 1.50m in height and at least 6 other obstacles of at least 1.40m in height.

Water jump of 4.00m including the take-off element.

Length of course: minimum 600m and maximum 700m.

Starting Order, Second Competition, Round One, Individual and Team

The starting order for the First Round of the Second Individual Competition and the Team Finals will be determined by a draw that will take place the day before the Second Competition.

Starting Order, Second Competition, Round Two, - Individual

The starting order for individual athletes in Round Two of the Second Competition is set

according to the reverse order of the aggregate penalties incurred in the First Competition and in the Round one of the Second Competition.

Starting Order of Teams in Round Two of the Second Competition

The starting order for the teams in the Round Two of the Second Competition is set according to

the reverse order of the aggregate penalties incurred in the First Competition and in the Round One of the Second Competition.

Team Finals Classification

Teams receive their placing by adding the penalties incurred by the best three Athletes in each team in the First Competition and the penalties incurred by the three best Athletes in each of the two rounds of the Second Competition. The team, which has obtained the least number of penalties will be placed first and declared Pan Am Team Champion.

In the event of equality of penalties between teams for first, second and/or third place, there will be a jump-off against the clock in which all team Athletes may take part, over six obstacles, which may be increased in height and/or spread at a speed of 375 m per minute.

The score in this jump-off is obtained by adding the penalties incurred by the three best Athletes in each team, but in the event of further equality of penalties, the times of these three Athletes in the jump-off added together will decide the winning team as well as those placed second or third. The score of this jump-off is only to determine the placing of the teams and will not count towards the final

scores of the individual Athletes.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first and the second place.

If after the jump-off there is equality of penalties and time for one of the first three places, the teams concerned will be placed equal.

Third Competition: Individual Final

The Third Competition will consist of two different rounds (Round A and Round B), each one judged according to Table A, not against the clock and with a time allowed and a speed of 400m/min.

This Third Competition is compulsory for the 25 best-placed Athletes and Horses (including those with equality of penalties for 25th place) according to the cumulative penalties over the first and second Competitions, Athletes must have taken part in the first Competition (completed or not), and have completed the second Competition (without having been eliminated or having retired) or have taken part in the first Competition (completed or not) and have completed the first round of the Second Competition (without having been eliminated or having retired). If for any reason one or more of these 25 best placed Athletes are unable to start, they will be replaced by participants from the reserve list of five Athletes.

Round A

Between 10 and 12 obstacles that include a double, a treble or three doubles. Maximum height 1.50m with a spread in proportion not to exceed 1.90m (2.00m for the triple bar). Water jump 4m including a takeoff element.

Length of course: minimum 500m and maximum 600m

The athletes will be invited to inspect the course of the Round B upon finishing the Round A

Starting Order of the Round A Individual

The starting order for Round A will follow the reverse order of penalties incurred in the first and the second Competitions. In the event of equality of penalties, the score of the first Competition will decide the starting order. The 25th qualifier will, therefore, start as number one.

Round B

The Round B is a different course than Round A, made up of 8 to

10 obstacles that include only one combination (a double or a triple) at a maximum height of 1.60m with a spread in proportion not to exceed 2m (2.20m for the triple bar).

Length of course: minimum 400m and maximum 500m

Starting Order for the Round B Individual

5.2 The starting order for Round B will follow the reverse order of total penalties incurred in Round A of the Final Competition, as well as in the first and second Competitions. The Athlete with the most penalties will start first, the Athlete with the least penalties will start last. In the event of Athletes with equality of penalties, the score of the first Competition, will decide their starting order.

Individual Final

The individual placing is determined by adding together for each Athlete the penalties incurred in the first Competition, as well as the two Rounds of the second Competition (disregarding the penalties incurred in the jump-off if there is one), and the two Rounds A and B of the third Competition.

The Athlete with the least penalties will be placed first and declared the XVI Pan American Games Champion Guadalajara 2011.

In the event of equality for one of the first three places after Round B of the Third Competition, there will be a jump-off against the clock at a speed of 400m per minute over 8 obstacles from the courses of Round A and B. The Athletes will be invited to inspect the jump-off course.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first place and the second place.

If after the jump-off there is equality of penalties and time for one of the first three places, Athletes concerned will be placed equal
